Dear

Please read the enclosed. Then tell me, What the hell is going on?

Is this how the US Government gets out of Viet Nam, et al., turn the military operation over to the corporations?

I am sorry, but this whole thing smells of the mercenary. Has it come to the point that the US Government must confess its total illegitimacy by having recourse to mere hired gun-men?

Thank you for your attention to this matter.

Sincerely

Ace R. Hayes
